

## Mounting Frame for PTC Resistors

### Description

Temperature-resistant plastic frame that safely holds the PTC heating resistors of the HR 01, HR 02, HR 03, HR 04, HR 05, HR 06 and HR 20 series.

### Design Features

- Simple and quick assembly of the individual components
- Clearances and creepage distances assured
- Integrated temperature limiter (bimetall) optional
- Knockouts  $\varnothing$  4,5mm

### Applications for resistors to be installed complete with mounting frame

- Additional electrical heating (low energy building)
- Air curtains
- Room air conditioning
